Subject: RE: EPA request for updates to application

Thanks, Calvin.

Per our discussion, we are preparing the updated permit application documents and will be prepared to submit this Friday, 18-June, with the exception of the Financial Assurance Demonstration (Attachment H). All documents will be submitted through the online GSDT site, free of CBI. A version of the Project Narrative with CBI will be submitted directly to EPA through a secure means - assuming we can use the same process as used in the past.

We are reviewing the feedback you provided on our latest financial assurance demonstration and updating our plans accordingly. We would like to hold a follow on discussion with EPA on the topic in the coming weeks. Likely in the first week of July. I will get back to you with some proposed times for a meeting in the coming days.

Thank you again and as always, let me know if you have any questions or need anything else.

Best Regards,
-Rebecca

Subject: RE: EPA request for updates to application

Dear Calvin,

Thank you for sending the copy of EPA's request for updates to our Class VI permit application. We are working diligently on the updates and cross referencing all documents. Work is going well however, unfortunately, we will not make the target 31-May-2021 submission date. We believe we need a few more weeks to complete the documents, i.e. Narrative and 9 attachments. Therefore, we are now targeting submitting the updated material in mid-June; by Friday, 18-June-2021.

Please let me know if you have any questions or would like to discuss. I am available by mobile – number below.

Thank you again for your time and consideration. We are looking forward to the completion of this major milestone toward the development of the first ever commercial carbon-negative energy project.

Regards,
-Rebecca

Subject: EPA request for updates to application

Good morning, Rebecca,

Attached is a copy of EPA's request for updates to CES's Class VI permit application. The request has also been uploaded to the GSDT.

Please let us know if you have any questions about this request.

Regards,
Calvin
